SCOTCH TWEED SUIT.

(COAT, VEST AND PANTS).

15 DOLLARS.

Over One Hundred Patterns to choose from.

THE success which attended our introduction of this 'SPECIALITY' last year, induced us to increase our Orders, for this season, and our London Agents having secured a very large Lot of SCOTCH TWEEDS of exceptionally good value, we now offer them to our Customers at the above quotation.

It can be readily understood that the profit on each suit must of necessity be small, but we estimate that, from increase of business, a greater profit will ultimately accrue to us than if we charged a higher price.

The same attention will be given, to the making up and fitting of these suits as would be to the most expensive materials.

THE BOUNDARY COMMISSION.
Spirat, Aug. 14.—The Afghan Boundary Commission are at Tadjikistan. The detailed survey parties are now all in camp, Mesher, Taidland and Talbot, having reported that the health of the party continues good.

MILITARY PROMOTIONS AND APPOINTMENTS.
London, Aug. 26.—The promotions and appointments in connection with the late operations in the Sudan have been published in a special edition of the official *London Gazette* of yesterday. The appointments as Knight-Commanders of St. Michael and St. George, Sir G. E. Greaves, Sir R. N. Buller, Brigadier-General Hudson, Colonel Ewart and Sir Charles Wilson have been appointed Knight-Commanders of the Order of the Nile. Major-General Sir Charles Wilson has been promoted a Knight-Commander of the Order of the Nile. Major-General Sir Charles Wilson has been promoted a Knight-Commander of the Order of the Nile.

PARAGRAPHS OF THE DAY.
London, Aug. 26.—According to the *Standard*, a declaration by the President of the United States, that he was confident of winning for the Irish their independence in the next session. This extreme Home Rule adopted a resolution imposing upon Irish candidates, in the approaching elections, the pledge of abstention from the British House of Commons.

SIR CHARLES WARREN RECALLED.
London, Aug. 27.—The *Daily News* publishes a paragraph stating that Sir Charles Warren has been recalled from Beuchanland.

(L. & C. Express, August 7.)
The appointment of Surgeon Henry G. Strickland, to Hongkong Hospital, is noted.

Lieut. Hawes, Royal Marines, recently of the Japanese service, has just landed for his new post, as a Lieutenant of the British Ordnance, proceeding via Japan.

A telegram from Iamania, Aug. 5, states that the steamer *Glenartney*, from Yokohama, &c., for New York, lost two days of her propeller in the siding Totsu (83 miles).

The French frigate *Atalante* has arrived at Saigon, where she is to disarm and mantle, and it is to be presumed will soon come home to France, as she is virtually worn out. She was launched in 1893.

It is probably of no further use to the French Government, who have graciously placed to confer the honour of a Knight-Commandership of the most Distinguished Order of St. Michael and St. George upon Dr. Halliday Macarney, O.M.G., Surgeon-Secretary to the Chinese Legation in London.

E. J. Ho Chiung-chong, the Chinese Minister, left Paris on the 3rd inst., and returned to Berlin, after his complimentary visit on the re-establishment of peace. During his stay his Excellency called upon the Papal Nuncio, which seemed to occasion a great deal of controversy between China and the Vatican, by which the action of the Roman Catholic mission would be undertaken by the Pope direct with the Chinese Government.

Several Journals have announced the late Earl of Bathurst as Lord Warwick, and the French press has been full of reports for China, and were to leave their premises in Plymouth on the 17th inst. (quitting passage) as the troopship *Albatross*. We understand that the information is incorrect, as the *Albatross* is a Regular Mail Steamer, and is not intended for foreign service whatever, and is believed unduly employed abroad as all for the present.

Latest Mail Advice.—Yokohama, San Francisco July 3, Shanghai June 29, Funchow June 20, Hongkong June 19, and French Mail, and the Straits Settlements, was delivered in London on the 1st inst., three days early. The advice from Japan, via San Francisco, were received this day. The next inward mail, the steamer *Amoy*, came on the 27th inst. The Singapore-Singapore 10th July, despatched from Alexandria on the 1st inst., a few hours late. The following inward mail reached Suez, per Messageries Maritimes steamer *Saghaton*, on the 1st inst., three days early.

The Chinese Government at the International Exhibition has not let its attractions for the public, although the exhibit is the same as that presented last year at Heathcote. It has been entirely renewed, and the decorations will be arranged, so that the visitor will find a new and more attractive and more excellent view of the ingenious and progressive spirit of the Chinese. The literature in connection with the Chinese Exhibition is also in a measure applicable to the exhibition. It consists of the literature of the Chinese Government, and a handbook containing practical education, diet, dress, and dwelling. 3rd, a treatise on Chinese music, published at the Customs Press in Shanghai.

The new steamer *Coromandel*, which has been built at Greenock, for the P. & O. service between London and the East, was towed down the river on the 1st inst. 11.15 knots an hour. She attained a speed of 11.15 knots an hour. She was towed down the river on the 1st inst. 11.15 knots an hour. She was towed down the river on the 1st inst. 11.15 knots an hour.

An unusual interest has been excited by this vessel from the fact that it is, in the belonging to the company, which has fitted with triple expansion engine, other respects the *Coromandel* is similar to the *Queen* and *Terrence*. According to the principle she has inherited, acting compound triple expansion engine, there are three cylinders and three double ended boilers, with a working pressure of 140 pounds steam and 120 indicated horsepower. The cylinders are 48 inches diameter, 30 inches stroke, and the connecting rods are 8 in. stroke. The number of turns per minute is 110. The condensing water is 7,000 feet, and the fire-grate surface 283 square feet. By the adoption of the triple expansion engines, an immense saving in fuel is effected, and the *Coromandel* is a very economical vessel. The principal dimensions of *Coromandel* are—Length, 400 feet; 45 feet; breadth of beam, 31 feet 6 in. moulded. Her displacement on a draught of 28 feet is 9,800, and the carrying capacity is 2,000 tons. The engines are 2,000 h.p. and the speed is 11 knots. The vessel has accommodation for 111 first-class and 44 second-class passengers. There are 195,000 cubic feet of cargo space, exclusive of large and baggage room. The *Coromandel* is easily converted into a troopship, and is being adapted for troops. The steamer is built entirely of mild steel. She is fitted with eight water-tight compartments. The vessel is fitted with Hattie's patent rudder brake. The construction of the vessel and of her machinery is the work of Mr. Taylor and Mr. Pittenger, the chief superintendents, and under special aid Lloyd.
